

# What drains from your CAR goes NEAR and FAR

Oils that leak from your car are carried through storm drains into local streams and rivers.

## 1 Quart of Motor Oil can:

- Pollute 250,00 gallons of water
- Make a two acre oil slick

## You can help!!!:

- Do not pour used motor oil down stormdrains
- Fix ALL leaks that occur in your vehicle
- Wash your car on the lawn NOT in the street
